

PARTNERSHIP

ANYWAVES & SYRLINKS renew their business partnership

Press Release

Space Tech Expo Europe, Bremen, Germany, 2022 November 17th,

ANYWAVES, the only pure European space antenna equipment manufacturer, and SYRLINKS, a leading company in the design of RF Communication systems for Space, has renewed their partnership agreement for the supply and marketing of ANYWAVES' COTS antennas on an international scale.

On 16th November 2022, ANYWAVES & SYRLINKS have signed a partnership agreement regarding the distribution of ANYWAVES' COTS antennas (S-Band antennas and test caps for telemetry, tracking and control, X-Band antennas for data downlink and GNSS Bands antennas plus test caps for navigation) by SYRLINKS.

ANYWAVES and SYRLINKS both share international ambitions and aim at becoming leaders in their respective spheres of activity.

By the continuity with ANYWAVES as product supplier, SYRLINKS is keeping a full and complete range of innovative equipment for smallsats. This international positioning will provide ANYWAVES and SYRLINKS with valuable new business opportunities. Whatever the size, partnerships are essential for New Space contractors since they can truly speed up innovation, the business process and time to market for new products.

Thanks to this partnership agreement, ANYWAVES and SYRLINKS have aligned in a winning combination where their complementary skills and international leadership ambitions will deliver a new set of capabilities to the New Space sector.

ABOUT SYRLINKS

Syrlinks, is a French company designs and delivers worldwide RF communication products to address four market segments: Space, Defense, Safety and Time-frequency.

The Space business unit has developed four product ranges: TT&C, Telemetry Transmitters, GNSS and SDR Payload. This meets different market segments in terms of satellite integration (Nano/Cubesat, Micro and Mini satellites) and in terms of applications such as Earth Observation, Satcom, GNSS Services, LEO PNT, Spectrum monitoring, etc.

Syrlinks masters the design of reliable product based on COTS (Components-Off-the Shelf) components, enabling cost-reduction for New Space.

Its products have been used in many high-profile space missions such as Rosetta, Myriades/[Myriades-evolutions](#), [Proba-V](#), [OneWeb Satellites](#), [Pléïades-Neo](#), [Argos Neo](#), [Microscope](#), etc. Syrlinks works with prestigious clients and partners worldwide such as Airbus, OneWeb Satellites, the CNES (the French national agency for space studies), the European Space Agency (ESA), Thales Alenia Space, Thales Alenia Space, Loft Orbital and Anywaves.
